

COMPLETE COMMUNICATION

Do More  
With Your  
Digital  
Signage

A turn-key solution to  
create and distribute  
advanced digital signage  
and interactive touchscreens.

## SIMPLE CREATION

A BREATH OF FRESH AIR

**Simplify the creation of complex content with Intuitive tools that are Easy-to-Use.**

Our premium design studio is included with every subscription. Quickly create and manage your digital signage content. Use templates or custom design your display any way you want. Plus setting up touch screen interaction is something you can easily do.

- » Create and edit through your web browser
- » Real time instant content updates
- » Free support and training

## FLEXIBLE SCALABILITY

WE'RE A BIT OFF THE WALL

**Scale to any screen without additional digital signage fees.**

Reach viewers everywhere — on kiosks, displays, laptops and mobile screens. Finally your message can connect with your audience anywhere in the world.

- » View on mobile devices as a PWA
- » Share your link with anyone
- » Easily manage 1 to 1000 devices

## VERIFIED RELIABILITY

COMPLETELY IN THE CLOUD

**Tested and verified by Google for easy remote management of your hardware and software.**

Get comprehensive security and reliability with Chrome hardware and device management. Chrome provides global security measures to prevent unauthorized access to your digital signage software and screens.

- » Easily monitor all your devices
- » Locked down from tampering
- » Regular security updates
- » Passes all IT concerns

Chrome Enterprise  
Recommended

## EDIT ANYWHERE

EVEN FROM A MOUNTAIN TOP

**Update your content from anywhere through your Arreya subscription.**

Whether you're at the event or on a mountain top you can make changes on the fly.

- » Live content in the editor
- » Schedule content
- » Real time instant content updates
- » Unlimited content managers

## CHANNEL PRICING ADVANTAGE

**Arreya is a monthly Software as a Service (SaaS) subscription. Display your channel on 1, 10, or 1000+ screens WITHOUT adding fees.**

Each subscription includes a web channel to create, manage and edit presentations in. Presentations are similar to Powerpoint but with advanced digital signage content integrations. An unlimited number of presentations can be created in a channel, but only one presentation can be scheduled to play at a time. Schedule a variety of presentations to play at different events, times during the day, week or month in advance.

Purchase additional channels to have different presentations play at the same time on selected screens in your network.

---

### **A Channel Subscription Includes Everything You Need**

A never-ending list of features to create ANY digital signage content.

CREATIVE STUDIO • MEDIA MANAGER • PAGE TEMPLATES  
TOUCHSCREEN • DYNAMIC WIDGETS • GOOGLE INTEGRATIONS

- » Knowledge base and training
- » YouTube tutorials
- » Email and phone support

---

### **Chrome Recommended Hardware**

For the best digital signage experience, Arreya recommends using Google ChromeOS on Chrome devices with Chrome Enterprise Upgrade.

Arreya is platform agnostic, but please check with our technical support prior to using Arreya with platforms outside the Chrome family. We support editing and playback on almost any device that can run a modern web browser.

## THE ARREYA EXPERIENCE

 **Simple activation**

 **Smart investment**

 **View everywhere**

 **License free**

### DEVICE MANAGEMENT

- Unlimited devices • Analytics • Health monitoring
- Remote Reboot • Chrome Enterprise Upgrade

## COMPLETE SECURE COMMUNICATION

Arreya's technology partnership with Google Chrome gives you the best of modern applications on the web with automatic rolling updates. ChromeOS was built with security as a top priority from the beginning. Unlike other platforms, ChromeOS provides a secure, worry-free experience that is simple to integrate. Combine Arreya and Chrome devices with **Chrome Enterprise Upgrade** for a secure and powerful experience in digital signage.

## CHROME ENTERPRISE UPGRADE

This is a web based admin console you license from Google. It allows a Chrome device to be set into "Kiosk" mode. This keeps your display locked to only play your Arreya channel and will automatically return to your Arreya channel if the device gets turned off. No worries about access to unwanted websites or having address bars on your signage.

Google Chrome Enterprise Upgrade and your Arreya channel get installed on every Chrome device purchased from Arreya.

- » Organize and track devices
- » Take device screenshots
- » Analyze device statistics
- » Make debug logs
- » Remote restart and rebooting
